JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

istence, but to envelope it within the present modern granite building, which was commenced in 1797, and is represented in the right-hand figure of the engraving at page 586. It is a handsome square tower, built of close-grained white granite, and not only contains between its massive walls the original Pharos, but is made to resemble it as much as possible; and on its exterior a projecting band of masonry exhibits the line of the original external staircase.

“No doubt can now any longer exist with regard to the position and preservation of this most interesting remain, the Pharos of Hercules. At foot of the drawing which Mr. Wilde exhibited, the following inscription is decisive: ‘*Perspectiva que de muestra el estado de la terre antiqua llamada de Hercules quando de emprendio sure edificacion y revestimento de canteria por orden del Real consulado du la Coruna.*”

“To establish this fact, and to record some additional notice regarding the traditions and early history of one of the most interesting structures at present remaining in Europe, must apologize for this lengthened notice.”

Col. Jones made a communication concerning the discovery in the River Shannon, of a large collection of ancient bronze and iron weapons and utensils, &c., which he presented to the Museum of the Academy, on the part of the Shannon Commission.
